

Verbal Brilliance in Latin: Second Conjugation Exercises

Practice these exercises until you can produce the meanings in either direction effortlessly and instantaneously. *Recommendation:* To make the best use of your time, do not just mechanically write down the list of words, but speak them aloud and try to think of a visual representation of the meaning as you write. Test yourself by covering the other columns or by folding the paper so that only a single column is showing as you try to understand each item in the other language. The following verbs will be used in the Second Conjugation exercises. Notice that the meaning "to hold" is here associated with *tenere* rather than with *habere*, even though the latter word can often be translated that way.
